

module One

# Class 07

## Loops introduction

When we want to perform repetitive task we use loops .

Types of Loops

For loop , While loop

For loops is used when you know till where you wanna go

While loop is used with a condition

## For Loop

**Range** Function (start , Stop , Steps)

for i in range(1, 11, 1):

**Range function is used on numbers**

for strings - for i in a:

or use the index values of strings in range function

## Practice

- Print numbers from 10 to 40
- Print numbers from -10 to 20
- Print numbers from 34 to 5
